No 817.

Yesterday arrived the Mails due from Holland *and* France.

LETTERS of the 6th ult. O. S. from Leghorn say, that some Days before a Vessel without any Colours, landed a great Quantity of Arms at Aleria in Corsica, with 100 Barrels of Powder, besides Lead, Iron, Steel, and Shoes, which the Baron Theodore has sent to the Malecontents of that Island, under the Direction of his Chaplain, his Aid de Camp, the Son of the late Advocate Costa, 2 Greek Captains, 4 other foreign Officers, and one of the Baron's Valets de Chambre, who having deliver'd some Letters to the Chiefs of the Malecontents, they order'd Bonfires to be made thereupon for 3 Days together, and caus'd Te Deum to be sung in the Churches; and that their Joy was doubled upon the Arrival of Count Antonio Colonna, (who is very much esteem'd in the Island for his Birth and personal Merit) together with 14 German Officers, who landed with some Ammunition near Ajaccio.

Some Advices from Corsica, by Way of France say, that the said Count, and the Lieutenant Colonel Dewin, attack'd and took the Fort of the Red Island on the 7th ult. after a Dispute of 9 Hours, wherein they lost 2 German Lieutenants, and 72 Soldiers; and that the Garison, consisting of 49 Men, being disappointed of Succours from Bastia by reason of contrary Winds, was oblig'd to surrender at Discretion. The Commanding Officer writes Word that they are well treated, but that his Lieutenant, who is a Corsican, and nam'd Leopard de Patrimonio, being known to have attempted the Life of Baron Theodore when he first arrived in the Island, had but 1-4th of an Hour to prepare himself for Death, and then they cut out his Tongue, cut off his Right Hand, tied him to a Stake and burnt him; at which Execution the Captain, and the other 47 Prisoners, were obliged to be present: After this the Count de Colonna told them, they might depend on being treated as Prisoners of War, in hopes that their Masters wou'd behave in like Manner towards them; and the Reason why the Lieutenant was so treated was, because he was perjur'd, and a Traitor to his King and Country.

The last Letters from Genoa, by the Way of France, which are of the 18th ult. O. S. say, that the 5 French Regiments which were in Garison at Antibes, upon Notice from their Officers in Corsica, that all things were ready for their Reception, sail'd and arriv'd safe at Bastia. —— The Letters add, that the Inhabitants of a Town which belong'd to the Genoese, have made an Insurrection on Account of a new Tax demanded of them.

The Paris Letter dated the 1st Instant says, the King has publish'd an Edict for suppressing several Offices of his great hunting Equipage, to the Number of 38 out of 44, who are to be cashier'd on New Year's Day next; but are to enjoy the Privileges, Prerogatives, Exemptions, and Rights of their Offices for their Lives; and their Widows are to hold the same during their Widowhood.

It adds, that the Officers belonging to the Chamber of Accompts, began last Week to meet in the Convent of the Great Augustins, where they are to meet till the Year 1740, to give Time for rebuilding that which was lately burnt. According to an Estimate which has been made of the Expence, 'will amount to above a Million of Livres; and 50,000 have been already advanc'd to the Architect who is to carry on the Work, in which there are to be Arches of Freestone to prevent the spreading of the Fire, in case any should break out there for the future.

Letters from St. Sebastian in Spain say, that on the 11th ult. O. S. at Night, a Fire broke out there at a House in the New Square, which had like to have burnt down the whole Town, because of a strong South West Wind which blew all the Time; but that the King's Lieutenant perceiving it as he was going his Rounds, made the Garison immediately take Arms; and having caused 2 Houses to be pull'd down to stop the Fury of the Flames, which had actually caught hold of 2 neighbouring Houses, the same was actually extinguished by the 13th in the Morning, after it had destroyed about 3 Houses.

Those from Germany say, that on the 16th ult. died at Vienna, in the 67th Year of his Age, the Count Maximilian Constantin de Fugger Kirchberg, &c. &c. And that on the 24th, Suss the Jew was strangled at Stutgard, and then hang'd in Chains.

Letters of the 30th ult. from Leyden say, that M. Bernard Sigfrid Albinus, Doctor of Physick, as well as Professor of Anatomy and Surgery, having been elected Rector of that University, M. John James Vitriarius, Professor of Law, whose Time was expir'd, resign'd that Dignity on the 28th; and upon that Occasion he made a very fine Speech in the Academick Temple in Presence of a numerous Audience: And M. Peter Burman, L. L. D. Professor of History, the Greek Tongue, Eloquence, Poetry, and Librarian of the said University, took Possession at the same time of the Office of Secretary, in the room of M. John Wesselius, D. D. and Professor of that Faculty.

Letters of the 18th ult. from Vienna say, that the Marquis de Mirepoix, the French Ambassador, has made a Present to the Count de Sinzendorf, Great Chancellor, of a very considerable Quantity of Burgundy and Champaign, and several other Things of the Produce of France. We are assured that this Count only waits for the Death of the Cardinal de Schro Hembach, Bishop of Olmutz, to resign his Secular Dignities and Offices, and embrace others in the Ecclesiastical State; and he has taken his Measures so well, that 'tis not to be doubted that the Emperor will give him the Bishoprick, and the Pope a Cardinal's Cap.

These Letters mention a late Instance of the Velt Marshal Count Philippi's Conduct, which confirms the great Opinion which the World had before conceiv'd of his Character. This General, who ever since he was employ'd in the Emperor's Army, prefer'd the Service of his Imperial Majesty to every private View, was nominated to command in the next Campaign, together with the Velt Marshal Count Oliver de Wallis, of whom he would have had the Precedency, as he was the Senior Velt Marshal: But such was Count Philippi's wonderful Modesty, that he thought, that considering Count Wallis was the older Man, and had been longer in the Service, he ought, upon this Occasion, to yield him the Preference. And as he could not do this without the Emperor's Leave, he went to him and said; 'Sir, your Imperial Majesty has done 'me the Honour to nominate me for the Command 'this Year in Hungary over the Head of Count 'Wallis, by reason of my Seniority in Rank. But 'as the few Talents I am possess'd of, may not be 'answerable to all that Zeal which I have for your 'Imperial Majesty's Service, I most humbly intreat 'you to permit me to yield my Rank during the 'next Campaign, to the Velt Marshal de Wallis. 'By making him so small a Sacrifice, I shall be 'very glad to improve by his superior Experience 'and Knowledge; and I beg your Majesty to permit, that I may depend immediately upon him in 'my Command.' The Emperor made Answer to Count Philippi, 'That he was charm'd with the 'Generosity of his Sentiments; and that he would 'leave him intirely at his own Disposal, to act as 'he thought fit.'

Some Letters from Vienna say, that the Court of France endeavours to prevail on the Emperor not to demand any other Terms of the Porte than what were stipulated by the Treaty of Passarowitz. Count Seckendorf has now the Liberty of going wheresoever he pleases about his own House. 'Tis said some Dutch Merchants have made a new Convention with the Emperor's Chamber of Finances, to lend them Three Millions of Florins upon the Security of the States of Silesia.

GENTLEMEN,

FROM an Inborn Love to the Woollen Manufacture, it was unanimously agreed, by an Assembly of Gentlemen, Merchants and Manufacturers, of different Counties in general, and of the City of London in particular, who have a sacred Regard unto his Majesty King George, and a warm Zeal for their Country's Good, and to transmit to the rising Generation, nay, we may say, unto an unborn World, —— the Blessing of keeping Wool at Home; —— Give us Leave to say it was resolved to apply unto the Fathers of our Trade, and Guardians of our Country, in Parliament assembled, —— that the Oil of a good Law may be pour'd into the open bleeding Wounds that the Woollen Manufacturers have received by their native Produce being Run into distant Lands, which stabs the Landed and Trading Interest of this Kingdom. It hath been resolv'd, That a Committee be form'd at the Rose Tavern without Temple-Bar next Thursday, at 5 o'Clock in the Evening, where any Gentlemen, Merchants or Manufacturers, that have any Proposals to make, or Schemes to lay before them, their Sentiments will be received with Pleasure,

By their humble Servants, and Lovers of the Woollen Manufactures.

N. B. *Last Friday Night a Packet of Letters were brought to the Rose Tavern, which were directed unto Mr.* John Dennis *in Aldersgate-street. —— They were Read with Pleasure, and the Gentlemen return the Authors Thanks, and should be glad of their Conversation.*

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this All who ever took it for any of the above-mention'd Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.
